

# Flight Data Connect Training Course Agenda

**April 29<sup>th</sup> – 30<sup>th</sup>, 2019**  
**Denver, Colorado**  
**USA**

## Course Introduction

Welcome to our Flight Data Connect Training Course! We will touch on a broad overview of FDM/FOQA and primarily focus on an in-depth exploration of our Flight Data Connect services through interactive exercises examining real safety events. This course includes lecture and interactive practical exercises.

No prior knowledge of Flight Data Monitoring, Flight Operations Quality Assurance, Flight Data Connect or aviation safety is required.

Complimentary attendance at our Safety Seminar on May 1<sup>st</sup> is included with registration for this course.

## Program

### Monday, April 29<sup>th</sup>

- 13:00 Coffee in meeting room
- 13:10 Introductions
- 13:20 FOQA Processes & Principles
- 14:20 Coffee Break
- 14:30 Data Recording & Processing
- 15:30 Coffee Break
- 15:40 Features of Flight Data Connect
- 16:40 Q&A, Wrap Up

### Tuesday, April 30<sup>th</sup>

- 08:45 Coffee & Pastries in meeting room
- 09:00 Analysis Specifications
- 10:15 Coffee Break
- 10:30 Details of Flight & Graphs
- 11:30 Catered Lunch
- 13:00 Statistics Platform
- 14:30 Customer-driven Training and Learning Lab
- 16:30 Wrap up

### Wednesday, May 1<sup>st</sup>

Safety Seminar – See Separate Agenda

## Facilitator Profiles

### Everett Brady – General Manager, Flight Data Services

Everett has worn many hats (sometimes simultaneously) in the aviation industry. Everett's career spans from fueling airplanes to leading the Command Center of a top-10 airport. In May of 2018, Everett joined Flight Data Services to lead the US branch of the company and further expand FDS' already impressive impact on aviation safety.

Everett is a Commercial Certificated pilot with Instrument and Multi-Engine ratings. He holds two degrees: a B.S. in Aeronautics – Professional Pilot emphasis; and a B.S. in Air Traffic Management.

Outside of work, Everett is an amateur model rocket enthusiast. As a youth, he was highly active in the Civil Air Patrol, rising to the grade of Captain and rank of Cadet Commander, leading an entire squadron of 40+ marching and barking teenagers! Everett hangs his hat in Phoenix with his wife Valery, one-year old daughter Audrey and a Terrier named Watson.

### Chris Jesse – COO, Flight Data Services

As Chief Operating Officer for the world's largest Flight Data Monitoring service provider, Chris is responsible for setting strategic goals for growth and innovation to maintain and enhance Flight Data Services' position as world leaders.

Chris has been working with flight data for 12 years, initially starting with a government funded research project in Artificial Intelligence to identify outliers in flight data. As a Software Architect, Chris designed and wrote the only Open Source flight data analysis platform which has been used to process in excess of 20 million flights. Working as the Research and Development Manager, Chris founded a new Data Science team to use Big Data and Machine Learning techniques to support advanced analysis of flight safety information

### Additional Facilitators TBD

## Registration

To register for the course, please fill in the online registration form [here](#).

### Course Fee:

#### Register early for savings!!

Registrations received by March 31st = \$500 per attendee

Registrations received after March 31st = \$600 per attendee

The course fee will be invoiced to your company following registration. This fee includes tuition, lunch, certificate of attendance, comprehensive training notes and, for current customers only, attendance at the Safety Seminar on May 1st.

### Cancellation Policy

Cancellations are to be sent via email to [denver2019safety@flightdataservices.com](mailto:denver2019safety@flightdataservices.com) on or before Friday, April 19<sup>th</sup> 2019. If you fail to cancel by this date, the course fee will apply.

### Venue

Dominion Towers  
600 17<sup>th</sup> Street  
Suite 2310 South  
Denver, Colorado 80202

The venue is a 10-minute walk (less than 0.5 miles) from the BASS convention.

For last-minute questions about venue or agenda, contact Everett Brady at +1 631 495 4261.

### Hotel Accommodations

We encourage attendees to make arrangements with any of the fine hotels in the downtown area.
